ALL STEEL SHED FRAMES - Phoenix, Az 85032

Above Is Lifetime Welded Steel Frame We Use In Our Economy/Low Profile Garden Shed Kits

DO IT YOURSELFERS OUR STEEL FRAMES CAN BE ERECTED IN LESS THAN 5 MINUTES....

The above 2 pictures show the quality of the welded steel frames we use in our heavy duty economy kits & storage buildings. The steel floor frame is built on 2 ft centers to hold the weight of stored items in the building. The roof/walls are built on 4 ft centers with wood purlins in between (as pictured below). Our frames are built in 4 ft deep pods and either 8 ft or 10 ft wide. The steel main frame supporting hoops will include 3/12 roof pitch, steel roofing, T-111 siding & 1x4" wood trim, floor plywood, straps, screws, fasteners, hinges & hasp for security. No one else selling sheds or shed kits today offers this kind of heavy duty quality in their products.

Our Steel Frames Can Be Used Over & Over Again or Relocated At Will

WE SHIP OUR DIY WELDED STEEL FRAMED GARDEN SHED KITS NATIONWIDE
